Largest Circulation in the District Reading Matter on Every Page.

WASHINGTON CITY:

Me NDAYJuly 1, 1872, The Star By Mail.

Persons leaving the city for the summer, or ary portion of it, can have THE STAR mailed to their address for such time as they desire, at the rate of fifty cents per month. Orders, accompanied by the money, should be sent to the business office of the paper.

The New York Post does not weaken on Greeley. If anything it is sharper than ever on the great Chappaquack. And, concerning Greeley's cabinet, forecast for him by various ingenious correspondents, the Post points out, first that Mr. Greeley is not elected, and second that should be be, he must perforce appoint a compromise cabinet, including a good man or two, probably, but which must certainly include some bad men to please the "corruptionists." It is difficult, the Post argues, to see how Mr. Fenton, for instance, could be kept out, and there would be the southern democrats, the protectionists and the railroad men and steamboat men and thieves to be looked after. But this, we would remind the Post, would be only the beginning of trouble for Dr. Greeley. The Senate is certain to be republican during the next four years whatever may be the complexion of the House, and that body would very likely object to some of his pie-bald cabinet appointments. On the whole, the Andrew Johnson incumbency of the White House was a bed of roses compared with what Horace's uneasy seat there would be, in collision with Congress and the republican party, and dependent for support on the democracy, who have not a principle in common with him, as would be speedily demonstrated the moment they attempted to act together. Therefore it is fortunate for Mr. Greeley that the people of the country have concluded not to send him to the White House to be harassed into his grave, as Harrison and Taylor were, by the office-seekers and by the burden of responsibilities for which he is unfitted.

The Springfield Republican (Greeley paper) "After all that Gen. Farnsworth has said and

done, it is not in the least surprising that the Grant party in his district should have concluded to try a change of congressmen. For precisely the same reasons, it will not be at all surprising if the liberal republicans and democrats of the district shall conclude that they cannot do better than to take him up, and do their best to put him back in his seat. The Republican is evidently in blissful igno-

rance of the gossip of Washington in regard to the doings of the truly gallant general, else it would not have fallen into the blunder of its inadvertent sarcasm upon the "liberal republicans and democrats"-the party of purity and reform-who are expected to indorse the said doings of the gay and festive Farnsworth, and to send him back to do so some more. It has been estimated that the loss to the

workingmen of New York in wages alone by the strikes amounts, so far, to nearly \$2,000,000. Had this sum been saved, and judiciously invested as capital in co-operative enterprises, at least 2,000 workmen would have been placed in To GAS CONSUMERS. a position to be their own employers. It will be readily seen how the benefits might be further extended by half the sacrifices that are required to make the strikes a temporary success. Besides the direct money loss by the strikes, the "indirect damages" are a serious item, for in many trades the strikers have succeeded in killing the goose that laid the golden egg. The brown stone cutters in New York declare that their trade in that city is almost ruined, and what little shipbuilding has been doing there Las, says the Mail, been driven away.

STREET CAR IMPROVEMENT .- One of the improvements introduced in Chicago since the fire is in the street cars. These useful public conveyances are now furnished with double caneexactly how much room he or she is entitled to. The utmost superabundance of feminine skirts cannot in these cars interfere with the comfort of male passengers. Under present arrangements the cushions are dirty and dusty, and are depositories of disease, and, besides, one person, male or female, by sitting sideways, not unfrequently occupies the room of two passengers. Thus, a few have more space than they are entitled to, while others have to stand in a crowded car in consequence. Why cannot we have the desired improvement?

The Catholic press is somewhat divided between Philadelphia and Baltimore. The Freeman's Journal, however, a leading Catholic paper, proclaims war to the knife against the Chappaquack woodchopper, saying :

"Outside of New York, which is not likely to cast its electoral vote for Mr. Greeley, the 'enthusiasm' for him is of a very singular character. In some quarters it is represented by what a distinguished New England democrat is reported to have said in elegant language:-'I am trying to take Greeley. I have swallowed him three times and kept my mouth shut; but every time he comes up through my nose!' That New Englander will, probably, succeed in keeping Greeley without 'enthusiasm.' At the south, some talk of taking him 'as an emetic!' Emetics, taken in June, are of a very queer character if held till November."

Our respect for the Boston Peace Jubilee, which survived many shocks and withstood the adverse criticism of envious New Yorkers, gave way when we found the papers boasting of a "unique feature of the programme" last Thursday, being the introduction of "an infant prodigy" five years of age, from Brooklyn, N. Y., who on "his dainty little violin" played "Not for Joseph" and "Put me in my little bed." No wonder Madame Rudersdorff "was so vexed that she refused to sing," and that Strauss was taken with rheumatism in his right shoulder. The "infant prodigy" business was too much of a "let down" for a first class

The Patriot is gotting fairly into the Greeley traces. It declares this morning for the nominees of Baltimore "whoever they may be." At the same time it argues that by supporting "whoever" may be nominated at Baltimore the democracy is to come into a new lease of power. The liberal republicans maintain, contrariwise, that the support of the "whoever" ticket by the democracy is to result in the atter disintegration of that party. Somebody is to be cheated, that

The British ballet bill, as amended by the House of Lords, does not amount to much after all. As mutilated by that aristocratic body, it permits the voter to publicly declare the manner in which he votes. Under the paternal coercion of mill-owners and land-owners, the voters will doubtless be made to see the propriety of availing themselves of the kindly permission. As passed, therefore, the bill is a fraud.

The New York papers are very much hurt by the insinuation of the Boston papers that they envious of the hub's jubilee. The New Yorkers are spending a good deal of ink and putting themselves into quite a fume this dogday weather to show that t'aint so.

In consequence of the decreasing number of births in France, attributed by the reds to the vices and profligacy under the second empire, the republican motto of "liberty, equality and fraternity" is to be amended so as to read "lib-

erty, equality and maternity." Nast's last cartoon represents President Grant with his foot on the tail of the British Lion, and the humiliated beast is shedding tears as big as gooseberries. At last accounts the President

had taken off his foot. The "Chappaquacks" is the name now given to Mr. Greeley's supporters. It is a very good

name, short and expressive.

B. F. HUNT wishes to inform his friends and customers that he can be found ou TUESDAY, July 2d, at Stalls 566, 567 and 568, in the New Center Market. on the 9th street wing, fronting B street, with his usual best quality of Beef. THE CABEER OF A GREAT BEMEDY. Twenty sun mers have clapsed since it was bri-fly announced that a new vegetable tonic and alterative, bearing the name of Hostetter's Stomach Bitters, had been added to the list of Preventive and Restorative medicines. The modest advertisement which invited attention to the preparation stated that it had been used with great success, in private practice, as a cure for dyspepsia, bilious complaints, constipation and intermittent fever. It was soon discovered that the article possessed extraordinary properties. The people, of every class, tested its merits as a tonic, stimulant, corrective and restorative, and found that its effects more than fulfilled their hopes and expectations. Frem that time to the present its course has been upward and onward, and it stands to day at the head of all medicines of its class. American or imported, in the magnitude of its sales and its reputation as a safe, agree. able and potent invigorant and restorative-For languer and debility, lack of appetite and gastric disturbances, so common during the summer months, it is absolutely infallible. Indigestion bilious disorders, constipation, nervousness, periedical fevers, and all the ordinary complaints generated by a vitlated and humid atmosphere, vanish under its renovating and regulating influence. This is its record avouched by volumes of intelligent testimony, extending over a period of a fifth of a century, and comprehending the names of thousands or well-known citizens belonging to every class and calling. In Europe it is thought a great thing to obtain the patronage of royalty for a "patent medicine," but Hostetter's Bitters has been spontaneously approved by millions of independent sovereigns, and its patent consists in their endorse-
